Re: **EX PARTE**  
WT Docket No. 06-150; PS Docket No. 06-229

Dear Ms. Dortch:

On August 22, 2008, Gerald Knoblach, Chairman and Chief Executive Officer of Space Data Corporation ("Space Data"), and Greg Rohde, President of E-Copernicus, on behalf of Space Data, met with Renée Crittendon, Legal Advisor to Commissioner Jonathan Adelstein on Spectrum and International Issues, regarding the above-referenced proceedings. The Space Data representatives discussed the re-auction of the 700 MHz D Block and how wide area technologies could be used to construct and operate economically a shared nationwide, interoperable broadband network. The positions expressed were consistent with Space Data's prior submissions on this matter. The Space Data representatives also relied upon the attached presentation.

Pursuant to Section 1.1206(b) of the Commission's rules, an electronic copy of this letter is being filed with the office of the Secretary. If you have any questions regarding this notification, please contact the undersigned.

Very truly yours,

/s/ Jennifer L. Kostyu
