

Before the
Federal Communications Commission
Washington, D.C. 20554

PR Docket No. 91-162

In the Matter of

Kansas Public Safety Plan

ORDER

Adopted: August 8, 1991; Released: August 16, 1991

By the Chief, Private Radio Bureau and the Chief Engineer:

1. On March 12, 1991, Region 16 (Kansas) submitted its public safety plan to the Commission for review. The plan sets forth the guidelines to be followed in allotting spectrum to meet current and future mobile communications requirements of the public safety and special emergency entities operating in Kansas. On May 20, 1991, Kansas filed revisions to the plan, based on conversations with the Commission's staff.

2. The Kansas plan was placed on Public Notice for comments on June 12, 1991, FR 28155 (June 19, 1991). The Commission received no comments in this proceeding.

3. We have reviewed the plan submitted for Kansas and find that it conforms with the National Public Safety Plan. The plan includes all the necessary elements specified in the *Report and Order* in Gen. Docket No. 87-112, 3 FCC Rcd 905 (1987), and satisfactorily provides for the current and projected mobile communications requirements of the public safety and special emergency entities in Kansas.

4. Therefore, we accept the Kansas Public Safety Radio Plan. Furthermore, licensing of the 821-824/866-869 MHz band in Kansas may commence immediately.

FEDERAL COMMUNICATIONS COMMISSION

Ralph A. Haller
Chief, Private Radio Bureau

Thomas P. Stanley
Chief Engineer
