

Dear Commissioners,

Please act on behalf of the American People by requiring that the internet remain open and free; require that we the people can upload at the same speed that the downloads are coming; provide us the same privacy as our US Postal Service, and allow competition to bring us fair prices and choices. The airways belong to the people and whether it was radio stations or public access TV, the public has never received a fair compensation for the use and profiting of others on its property. We put our trust in you to fight for what is just for the American people. Please don't let us down. Thank you.

Roxanne Earnest
