

I have always had unlimited internet access 24 hours a day, that is how it was advertised when I subscribed to COMCAST broadband for for \$42.95 a month plus taxes. today Sept 15th 2008, COMCAST sent me an email that they were going to limit my bandwidth to a certain number of gigabytes a month, I have 2 college children myself and my wife that use this connection. I signed an agreement for unlimited access....

next month will they tell me how many tv programs I can watch before they cut me off??

next month will they tell me I made too many phone calls and cut me off??

All of these services were sold as unlimited Cable, unlimited calling and long distance and unlimited internet.

PLEASE DO NOT ALLOW COMCAST OR ANY OTHER CABLE/BROADBAND COMPANY TO LIMIT USAGE OR BANDWIDTH, NEXT THEY WILL BE LIKE THE GAS COMPANIES RAISING CABLE AND INTERNET BECAUSE OF HURRICANES AND TORNADOES PLEASE STOP THIS FROM GOING INTO AFFECT OCTOBER 2008.
