**Re: Notice of Oral Ex Parte Presentation
Regarding Docket Nos. ET 04-186 & 02-380**

Dear Ms. Dortch:

This is to report that yesterday, September 15, 2008, I met with Commissioner Deborah Taylor Tate and Wayne Leighton, her Special Advisor for Wireless & International matters. During the course of the meeting, we discussed the above-captioned proceeding, and I reiterated Qualcomm's position that the Commission should license and auction the TV White Space. I provided Commissioner Tate and Mr. Leighton with the August 20, 2008 report prepared by Charles L. Jackson, Dorothy Robyn, and Coleman Bazelon and entitled "Unlicensed Use of the TV White Space: Wasteful and Harmful." A copy of that report is included with this filing. I discussed the findings of that report—that there is a more than ample amount of spectrum already allocated for unlicensed; that there is no evidence that the existing unlicensed bands are congested and in fact the evidence is to the contrary; that the TV white space is poorly suited for unlicensed; and, finally, that for the provision of wide area wireless broadband services, licensed spectrum is required.

Respectfully submitted,

/s/ Dean R. Brenner
