Attn: Mr Kevin J. Martin, Chairman, FCC
445 12th Street SW
Washington, DC 20554

Dear Mr Martin,

I would like to take this opportunity to introduce you to Radio Erin: a New York based Irish radio station established in 2002. We cover all things Irish; from both Ireland and Irish America: current affairs, sport, culture and especially music.

At the present time we are broadcasting via the internet due to the difficulty in finding available airtime on local radio stations in the New York area.

On several previous occasions we approached the two satellite radio operators, SIRUS and XM, with a view to securing one of their unused channels but were unsuccessful.

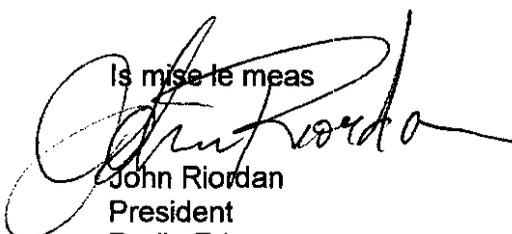

Under the new terms agreed for the merger of Sirius and XM radio the new company, Sirius XM Radio, has agreed with the FCC to make a total of 24 channels available to ethnic groups.

The approximately 45 million Americans claiming Irish ancestry are a hugely respected and influential group of individuals with great pride in their distinctive heritage, culture and music. They, and their ancestors, have contributed in so many ways to making this country great. They deserve a channel on satellite radio which informs, educates and entertains them with all things Irish.

Radio Erin is dedicated to providing such coverage and would welcome the opportunity to provide a first class service to the Irish American listener on satellite radio.

We hope the Commission will ensure that SiriusXm Radio adhere to their commitment in this matter.

Is mise le meas
