Dear The Federal Communications Commission:

I am writing to urge you to consider live musicians as you think about the impacts of opening wireless frequencies. The current proposal could cause harm to live musicians, companies that manufacture wireless music products, and everyone else who has a stake in supporting live musicians. Harmful interference could hinder the performance of live music in public schools, universities, churches, performing arts centers, outdoor arenas and countless bars and restaurants across the country.

[Please insert text or a personal vignette here.]

Please think about the interests of live musicians and all who support them as you consider this proposal. Thank you.

Sincerely,

Carl Kremer
