Re: Developing a Unified Intercarrier Compensation Regime, CC Docket No. 01-92; High-Cost Universal Service Support, WC Docket No. 05-337; Universal Service Contribution Mechanism, WC Docket No. 06-122; Intercarrier Compensation for ISP-Bound Traffic, WC Docket 99-68; Establishing Just and Reasonable Rates for Local Exchange Carriers, WC Docket No. 07-135

Dear Ms. Dortch:

Pursuant to a request from the Commission staff, AT&T examined three additional scenarios for comprehensive intercarrier compensation and universal service reform. The attached slides represent estimates of the total access shifts, average SLC increases and a Universal Service fund impact for the different scenarios. The model runs assume that no benchmark is included in the access reform. AT&T supports the Commission's efforts to take definitive steps toward comprehensive reform of both intercarrier compensation and universal service
