**Re: In the Matter of Universal Service Contribution Methodology, WC  
Docket No. 06-122; In the Matter of Federal-State Joint Board on  
Universal Service, CC Docket No. 96-45**

Dear Ms. Dortch:

On October 28, 2008, I spoke to Jennifer McKee, Acting Chief of the Telecommunications Access Policy Division of the Wireline Competition Bureau. I explained that, should the Commission adopt a universal service contribution methodology that distinguishes between residential and business services, it is Verizon Wireless' view that its telematics customers should be classified as business customers.

Pursuant to section 1.1206 of the Commission's rules, this letter is being filed electronically with your office. Should you have any questions, please contact the undersigned.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Tamara L. Preiss".
