Re: ET Docket Nos. 04-186 and 02-380

Dear Ms. Dortch:

On October 31, 2008, William Check, Senior Vice President, Science & Technology, Andy Scott, Vice President of Engineering, and the undersigned from the National Cable & Telecommunications Association (NCTA), met with Julius Knapp, Chief Engineer, Office of Engineering & Technology (OET), Alan Stillwell, Deputy Chief, Ira Keltz, Deputy Chief, Bruce Romano, Associate Chief, and other OET staff regarding the above-captioned proceeding. We discussed the technical parameters for “white spaces” devices to ameliorate interference to the reception of cable services in cable households. The technical parameters are outlined in an ex parte filed by NCTA on October 31, 2008.

Sincerely,

/s/ **Daniel L. Brenner**
