)

700-MHz Plan Addendum

Dear Chief Poarch:

On 24 April 2008, FCC Regional Planning Committee (RPC) 8 delivered its public-safety communications plan for the General Use channels in the 769- to 775-MHz and 799- to 805-MHz frequency bands to the FCC via the Commission's Electronic Comment Filing System (ECFS).

In corresponding with FCC representatives since this time, it is my understanding that in order for the proposed Plan to be posted on Public Notice (PN), RPC 8 must provide written evidence from the adjacent-regions indicating that they have no objections to the revisions made to the proposed Plan in adherence to the *Second Report and Order (R&O)*, the reconfiguration of the 700-MHz Band.

Enclosed herewith, please refer to the official, written correspondence from FCC RPCs:

- 19 (New England);
- 28 (Eastern Pennsylvania, Southern New Jersey, and Delaware); and
- 30 (New York – Albany).

Please contact me with any questions or concerns you may have.

Respectfully submitted,

A handwritten signature in black ink, reading "William Gardner", is written over a horizontal line. The signature is cursive and fluid.

William Gardner, Chairman

FCC RPC 8 700-MHz and 800-MHz NPSPAC Planning Committees
