

We have been paying to receive channel 380 eastern CBS while living in Washington State. Although we have local CBS the programs that we enjoy watching are on later than we are able to stay up.

Therefore we have subscribed to the eastern channel. We watch the local news and programs that fit our schedule and do not understand why you or anyone else has the right to determine what we can and can not watch at our convenience. We do not enjoy the game shows, sit-coms, and reality shows that are on the earlier time frame in Washington State. Therefore we request you do not tell us what to watch as we are willing to pay for the privilege and freedom to make that determination ourselves.

Sincerely

Verlayne and Bob Talevich
