RE: Supplemental Filing to the 2009 Average Schedule Local Switching Support Formula,  
Docket No. 05-337

Dear Ms. Dortch:

Attached is USAC's *Supplemental Filing to the 2009 Average Schedule Local Switching Support Formula*. When USAC filed the 2009 Average Schedule Local Switching Support (LSS) Formula, USAC based its analysis of change in aggregate local switching universal service support to average schedule companies on 2008 carrier data because 2009 carrier data was not yet available.

Subsequent to October 1, 2008, the 2009 carrier data was available and provided a more accurate estimate of 2009 aggregate local switching universal service support. As such, USAC provides this supplemental filing to disclose the results of comparison of the 2009 LSS Projections for Average Schedule Companies and the 2008 LSS Projections for Average Schedule Companies.

In accordance with the Commission's rules, this *2009 Average Schedule Local Switching Support Formula* has been filed electronically in the above-referenced docket.

Sincerely,

/s/ Karen Majcher

Vice President, High Cost and Low Income Division
