

This is regarding Time Warner's request to spin off its cable division. In consideration of this request, the FCC should require that Time Warner cease the distribution of programming that is harmful to families and communities. Note Time Warner's nationwide distribution of pornography through its pay-per-view cable service. Based on numerous studies showing that pornography encourages distorted and unhealthy views of sexuality, and the sexual/violent exploitation of women, ultimately leading to the rise of crime and social deterioration, Time Warner should not be extended any privileges to benefit their business unless they are willing to keep our airwaves clean and until they are willing to stop contributing to the destruction of society and the family. I hope the FCC will support this position, and make its judgments for the good of society, children and families.
