

This is the "Fairness Doctrine" in disguise. Can't you figure it out. Not even the liberals want to listen to bad radio talk shows no matter how you dress it up or try to force it down everyone's throat. Please stop this constant attack on our ability to freely choose who we decide we want to listen to. Otherwise call it what it is: Marxism. We are watching and we will continue to respond within the law to our ut most abilities.

Thank You,
