

I am writing to voice my concern of Time Warner's distribution of pornography through its pay-for-view cable service. When considering Time Warner's request to spin off its cable division, the FCC should require that Time Warner cease the distribution of programming that is harmful to families and communities. Many studies show that pornography is such programming. Time Warner should be required to provide sales figures for the entire cable division, and specifically their adult channels. The FCC's main concern should be the protection of families and communities.
