United States House of Representatives

Washington, DC 20515-1603

Dear Representative Moore:

Thank you for forwarding the letter from Elizabeth Watkins, one of your constituents, in support of requiring any licensee of the 2155-2175 MHz band to provide free and family-friendly broadband service to at least 95% of the U.S. population.

The Commission recently released a Notice of Proposed Rulemaking seeking public comment on various proposals, including the ones Ms. Watkins supports, for wireless broadband use of the spectrum that is the subject of your letter. The Commission will consider all relevant information before deciding how to license the 2155-2175 MHz band. A copy of your letter and this response will be placed in the rulemaking docket (WT Docket No. 07-195) so that it will be included in the record for this proceeding.

Please let me know if I can be of further assistance.

Sincerely,

A handwritten signature in cursive script that reads "Blaise Scinto".

Dear Representative Moore:

RE: FCC Proceeding 07-195

As you consider the service rules for the 2155-2175 MHz spectrum band, please make delivery of free and family-friendly broadband a requirement for any license holder.

I also encourage you to adopt the plan as submitted by M2Z networks (www.m2znetworks.com) and require that any provider build to at least 95% of the U.S. population. Too many Americans are winding up on the wrong side of the broadband divide and the FCC has the power to improve the situation overnight.

Free, family-friendly broadband is in the public interest because it will make us safer and more competitive, it will create equal opportunity, and it will improve our great country.

Please act today.
