Dear Kevin: *KEVIN*

Pleasure to make your acquaintance.

Although my understanding is that there are no clear guidelines or timetables as to how the minority leases will be awarded per the merger of XM and Sirius, I wanted to officially put my name and company in the running for one of the stations.

Please inform me of how this decision will be made and how I can present our case for a station when the time is right.

I've already identified the gentleman who would run the station for me and I firmly believe that together we can create unrivaled 24x7 content.

Please let me know how I should proceed.

Best regards,

Quincy D. Jones
