Dear Mr. Adelstein-

I URGE you to support the porn-free wireless plan.

PLEASE! Imagine if a child was watching cartoons on "channel 10" and then flipped to "channel 11" and found the most graphic hardcore pornography. Then further imagine if channel 11 allowed child predators and child pornographers to get in contact with those same children.

Well, there's no need to use your imagination any further: All of that is possible on the internet, and sadly, even more.

Please FCC! Please do something! You must know that porno is out of control in this country and it's tearing up marriages and destroying the lives of the most innocent around us!

Please do something.

Docket #07-16

LThomas213@aol.com wrote on 12/8/2008 6:01:34 PM :

Commissioner Adelstein:

I understand that a proposal is being considered to create a wireless service that is Porn free. What a great idea. I can't imagine anything better than to provide a system that would protect not only our children and grandchildren but even us old people from the insidious menace of pornography. There is no doubt that pornography is addictive and once many young people are exposed to it their lives are changed which of course those who peddle such smut are counting on.

Please consider the moral compass of our nation and vote on such a proposal that would give us the right to be on the Internet without being 'forced' in many ways to view pornography.
