**\* Not applicable for Service Provider reporting.**

**Section 7. Product Labeling Information:**

Do all hearing aid-compatible handsets include labeling?

Yes  No

If no, please explain.

Do all hearing aid-compatible handsets with the Wi-Fi air interface have clear and effective disclosure that the handset has not been tested for hearing aid compatibility with respect to its Wi-Fi voice operation?

Yes  No

If no, please explain.

**Section 8. Public Website:**

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system?

Yes  No

If yes, please provide the address for the public website.

If no, please explain.

Not required for the reporting period ending December 31, 2008. See Rule Sections 20.19(H) & (i)(1).

**Section 9. Describe Consumer Outreach Efforts in the Past 12 Months:**

The Company has instructed its sales staff about the availability of hearing aid-compatible (“HAC”) phone models and it has signs in each store advertising the availability of HAC devices. The Company’s sales staff are aware of the HAC-compliant handset issue and have been trained to respond to customer inquiries regarding HAC-compliant phones. The Company also has wireless industry pamphlets available that customers can take home with information about the Commission’s HAC requirements and HAC rating system. To the extent that additional information is developed by industry or the hearing-impaired community on the compatibility of certain phone models with particular hearing aids, the Company will endeavor to make such information available to consumers. In addition, both hearing-impaired and non-hearing-impaired customers are permitted to test the phones in the retail stores. Furthermore, the Company has a policy which allows customers (hearing-impaired or otherwise) to test handsets and service without commitment for up to two weeks. If the customer is not satisfied, the customer may return the handset free of charge (assuming that it has not been damaged) at the end of the two-week trial period.

**Section 10. (Service Providers Only) Describe the Levels of Functionality into Which the Compliant Handsets Fall and Provide An Explanation of the Service Provider’s Methodology for Determining Levels of Functionality:**

Levels of handset functionality and methodology for determining functionality are as follows:

- Basic phones (entry-level devices offered for \$10 or less)
- Feature phones (devices with more advanced features and capabilities offered for more than \$10) and
- Smartphone/PDAs (devices that run complete operating system software as a platform for application developers).
