If yes, please provide the address for the public website.

If no, please explain.

**Section 9. Describe Consumer Outreach Efforts in the Past 12 Months:**

The Company has instructed its sales staff about the availability of hearing-aid compatible phone models and it has wireless industry pamphlets available in its company store to provide information on the FCC's requirements and HAC rating system. Additional information about hearing aid compatibility is available on the iwireless web site at [http://www.iwireless.com/customer-support-hearing\\_aid.asp](http://www.iwireless.com/customer-support-hearing_aid.asp).

To the extent that additional information is developed by industry or the hearing impaired community on the compatibility of certain phone models with particular hearing aids, the company will endeavor to make such information available to consumers.

**Section 10. (Service Providers Only) Describe the Levels of Functionality into Which the Compliant Handsets Fall and Provide An Explanation of the Service Provider's Methodology for Determining Levels of Functionality:**

Levels of handset functionality and methodology for determining functionality are as follows:

- Basic phones (entry-level devices offered for \$10 or less)
- Feature phones (devices with more advanced features and capabilities offered for more than \$10) and
- Smartphone/PDAs (devices that run complete operating system software as a platform for application developers).

### ***Supplemental Information***

Winnebago Cooperative Telephone Association d/b/a WCTA Wireless (“the Company”) is a small rural CMRS service provider with operations in the State of Iowa. The Company provides its service in conjunction with Iowa Wireless Services d/b/a iwireless. In its company-owned store, the Company offers a selection of wireless handset models, including a variety of hearing-aid compatible devices, specified in Attachment A. Additional handset models and accessories may be ordered from iwireless (at <http://www.iwireless.com/phones.asp>) and are typically delivered to the customer within 24 hours.

#### **Section 7 – Product Labeling**

The Company obtains its inventory of wireless handsets primarily from iwireless, and staff from iwireless routinely verifies that all hearing aid compatible devices are labeled in accordance with the Commission’s Rules. Upon receipt from iwireless (and upon receiving handset shipments from third-party vendors), the Company verifies that the HAC rating(s) are displayed on the packaging material for all compliant devices and that a description of the ANSI C63.19 rating system has been included in the device’s user’s manual or as an insert.

The Company does not currently offer any hearing aid-compatible devices that also utilize the Wi-Fi air interface.

#### **Section 8 – Public Website**

As noted above, the Company is a small rural service provider that provides service in conjunction with the iwireless network. The Company maintains a web site with basic information about its service offerings at <http://www.wctatel.com>. Because the Company lacks the personnel and resources necessary to maintain an extensive site (and because such resources are better used for extending service to rural and underserved areas), information about the Company’s iwireless service and a complete list of handset offerings (including a click-box feature that allows customers to easily sort and identify hearing aid compatible devices) is provided at <http://www.iwireless.com/phones.asp>. An explanation of the HAC rating system, along with links to industry resources, a list of compliant devices and their compatibility ratings, a description of the company’s methodology for determining handset functionality and information on other wireless accessibility options for the deaf and hard of hearing are readily available to the public at [http://www.iwireless.com/customer\\_support-hearing\\_aid.asp](http://www.iwireless.com/customer_support-hearing_aid.asp). A direct link to this information is provided on a web page that describes the Company’s iwireless service offering at <http://www.wctatel.com/Long%20Distance/wctaPhone/iwireless.htm>
