Section 9. Describe Consumer Outreach Efforts in the Past 12 Months:

Inland Cellular continued to train their retail employees to identify and provide information regarding HAC compliant handsets and potentially useful accessories to Inland Cellular's current and prospective subscribers. Inland Cellular believes that one of the most effective ways to disseminate information to its consumers is at the point of sale. Inland Cellular will continue to educate its retail staff on HAC issues and the developing technology offered through the equipment manufacturers, so that their retail staff will remain a valuable information resource for Inland's current and prospective subscribers.

Inland Cellular will continue to build on their efforts to educate both their potential subscribers and their current subscribers on the HAC compliant handsets being offered:

- Inland Cellular continues to supply its retail staff with informational materials concerning the compliant handsets and accessories. Inland Cellular also continue to provide informational literature at the Partnerships' retail stores concerning compliant handsets and accessories as it becomes available and the number of HAC compliant phones increases;
- Inland Cellular remains committed to regularly update its web site as new HAC handset information becomes available, calling attention to the HAC compliant handsets and accessories; and
- Signs have been installed at each point of sale station along with updated information about HAC compliant handsets and accessories.

Section 10. (Service Providers Only) Describe the Levels of Functionality into Which the Compliant Handsets Fall and Provide An Explanation of the Service Provider's Methodology for Determining Levels of Functionality:

Inland Cellular's hearing aid compatibility offerings encompass the entire range of handset functionalities. For illustrative purposes, Inland Cellular has designated its various categories as "High", "Mid" and "Basic." While some individual models may differ slightly, the descriptions below provide a general illustration of the types of features and characteristics typical of the models within each category.

- High: Smart phones, data capable, e-mail capable
- Mid: Media capable, text messaging, touch screen
- Basic: Basic voice and text messaging capabilities
