

To who it may concern,

I have attached my dtv box to my tv.

Now, since doing this I lost Channel 10, Channel 23, Channel 57 and Channel 16 wneq. What gives?

I thought with this ditigal I was supposed to get my channel real clear. I did get some more channel, but lost the ones I like.

John Hesch

PS: I have an antenna with a power boost and a rotor, I tried to turn the rotor to get the channel I lost, but it did not work and my antenna is 105" long so I do not think it is my antenna.
