

During the courting period we (current customers) heard that service would only get better and that costs would not increase as a result of the merger. Now I am being notified that, even as an xm subscriber, I can no longer listen to xm music online at work at no cost after 3/11/09. This appears to be a direct contradiction of what was "sold" and will be an increase in fee for no additional benefit of service. An increase, I'm afraid, that will not be the last.
