Washington, DC 20554

Dear Kevin Martin:

RE: Please vote today to support a LIFELINE, free, family-friendly, nationwide wireless broadband (FCC Proceeding 07-195 for the 2155-2175 band).

I applaud the efforts of the FCC and those Members of Congress who support the creation of a LIFELINE of free, family-friendly, wireless broadband network for at least 95% of Americans.

A lifeline of free broadband would bring much needed relief for many Americans who struggle to make ends meet with basic living expenses and would raise our country's economic competitiveness to the benefit of ALL Americans. Over 100 million Americans still lack broadband and one study indicates that a mere 7% percent increase in broadband adoption would create 2.4 million jobs and have a \$134 billion economic impact. Imagine what broadband access for nearly ALL Americans could do for job creation and our economic competitiveness.

Since the item is on circulation and can be voted on by the FCC at any time, I strongly encourage you to support this lifeline of free, family-friendly broadband today as it will bring unprecedented benefits to our great country.

Please don't delay -- support free broadband in America today.
Sincerely,
Meredith Evans

Please don't delay -- support free broadband in America today.

We are currently being blackmailed by Fisher Communication for an 82% increase to DISH network which we already pay \$68.00 a month and thus depriving us of CBS. In this economy who can afford an 82% increase, with people being laid off of jobs and companies filing for bankruptcy? Television is our lifeline to the outside world a way we can save money instead of going to the movies. Radio is free and we should be able to make the internet free to everyone. Advertising takes care of the cost of both which we ultimately pay for when we buy the product. Please help us

with the Lifeline/Free Broadband. This is a crucial time in the United States to show the world that we can be a leader in technology to the poor, the schools and main street America. I applaud Milo Medin and John Muleta to serve the people of the United States and not wanting to be a Bill Allen, Bill Gates or a Steve Jobs they are wanting to help. I don't understand Congress not passing something for the American public that would further the education of the young who will someday lead the world. Please vote for this bill

Sincerely,

Penny Spencer
