

Most people don't know, how the media has silenced the voices of the American people. In the Shoals area of North Alabama, this would be Florence, Sheffield, Muscle Shoals, and Tuscumbia, Alabama, and much the same all over the state when it comes to radio not doing local news. The Shoals area which has about eight or nine radio stations, AM and FM, some low power and some high power, they do not offer any local news period. We have only one news outlet and that is the Newspaper which is known as Times Daily which is owned by the New York Times, a big corporation dominates the news in the Shoals area. This is dangerous because people are only getting one-sided news. Something needs to be done about fair and balanced media, especially in the south. There's not one democratic talk show that I know of in the whole state of Alabama that is on at prime time or even on the air period. It's all Rush Limbaugh, Sean Hannity, and conservative talk radio, one-sided views. I'm hoping that our congress and our senators will wake up to what's going on with the media. It's the media's job to be the watchdog and give the views and the news of both sides and let the people decide. Thank you very much. Please fight for fair media. Thank You!
