

I ask the FCC to preserve PEG Channels by granting the petitions of the Alliance for Community Media CRS-8126, the City of Lansing, Michigan CSR-8127 and the City of Dearborn, Michigan CSR-8128. These petitions will stop AT&T, Comcast and others from relocating these channels and making them hard to find, impossible to record on DVR, impossible to reach by channel surfing, impossible to add closed captioning or a second language, off channel guides, and costly.

I run the college channel for Oxnard College and it is an important resource to our students who don't have the money to access higher tier channels. Distance education is important for these lower SES students who depend on our PEG channel for easy and affordable access to educational material.

We ask the FCC to act now to deliver the intent of Congress and grant all three petitions.
