OFFICE OF ENGINEERING AND TECHNOLOGY DECLARES SPRINT NEXTEL, INC. REQUEST FOR A WAIVER OF THE 2.0 GHz BAS RELOCATION DEADLINE TO BE A "PERMIT-BUT-DISCLOSE" PROCEEDING FOR *EX PARTE* PURPOSES

ET Docket No. 02-55 ; WT Docket No. 00-258 ; ET Docket No. 95-18

Comments Date: March 9, 2009

Reply Comments Date: March 19, 2009

On February 12, 2009, Sprint Nextel, Inc. (Sprint Nextel), the Association for Maximum Service Television, Inc. (MSTV), the National Association of Broadcasters (NAB), and the Society of Broadcast Engineers (SBE) (collectively, "the parties") filed a *Supplemental Joint Request Concerning the BAS Relocation* (Supplemental Request). In the Supplemental Request, the parties request that the Commission waive until February 7, 2010 the deadline by which Sprint Nextel must complete the relocation of the Broadcast Auxiliary Service (BAS) licensees in the 1990-2025 MHz band.

Sprint Nextel's BAS relocation obligation was undertaken in conjunction with a major realignment of the 800 MHz band to resolve ongoing interference between public safety and commercial operations. As part of this realignment, and in exchange for giving up some of its 800 MHz band spectrum, Sprint Nextel committed to the relocation of BAS incumbents in the 1990-2025 MHz band and was to complete the relocation by September 7, 2007.

In March 2008 the Commission granted the parties a waiver to provide additional time to complete the BAS relocation. *Improving Public Safety Communications in the 800 MHz Band*, 23 FCC Rcd 4393 (2008). The Commission extended the relocation deadline to March 5, 2009, and held in abeyance the parties' original waiver request, which asked that the relocation deadline be extended to February 7, 2010. By the Supplemental Request, the parties renew their request to extend the BAS relocation deadline to February 7, 2010. The Supplemental Request cites numerous circumstances that the parties characterize as being beyond Sprint Nextel's and the broadcaster's control, and that will prevent completion of the BAS transition before the current deadline. On February 27, 2009, the Commission waived the relocation deadline for a period of 45 days, until April 19, 2009, in order to provide the Commission with time to consider the issues raised by the Supplemental Request. *Improving Public Safety Communications in the 800 MHz Band*, FCC 09-13 (Feb. 27, 2009).

The Office of Engineering and Technology (OET) seeks comment on the Supplemental Request. OET has concluded that in order to develop a complete record on the complex issues presented by this request, this proceeding will be treated, for *ex parte* purposes, as a "permit-but-disclose" proceeding, in accordance with Section 1.1200(a) of the Commission's rules, and is subject to the requirements under Section 1.1206(b) of the rules.
