

We purchased a TVGuardian over two years ago to allow us to watch movies that contained offensive language. Now it is a value because we can use it for TV programs. Without TVGuardian, we would have had cable removed and perhaps even TV. The use of profanity, vulgarity and the improper use of God's name is extremely distasteful, upsetting and alarming. I listen to the teens and tweens of today's world and am sickened by the pathetic attitudes. I can see a direct result of the horrible examples that are burned into their brains from hours of watching TV and Gaming. I certainly encourage the FCC to allow the TVGuardian type technology to be included in all forms of TVs, DVD Players, Blu-Ray players, cable, satellite, computers, the Internet, cell phones, iPods/Mobile Video Players, Gaming Consoles (Xbox/PS3/Wii), DTV converter boxes, and DVRs.

Thank you for your attention.
