

Hello. I have been using TV Guardian for over 5 years now and we will not watch a movie without it. We in our family ar Christians and we do not want to hear vulgarity of anykind so TV Guardian has been a blessing to us. It is sad, but we have reduced our cable to basic because of all the filth and the language that fills the cable channels. I feel TV Guardian should be mandatory on all TV's, VCR's, DVD players and even for cable TV. Since we are forced to accept what ever gets piped into our homes, we should at least have the ability to monitor it. I would definitely pay more for our cable if TV Guardian was included. Thanks for your time!
