Re: For the following dockets, ex parte communication pursuant to Section 1.1206 of the Rules:  
94-102, 05- 196, 07-114

Dear Ms. Dortch:

On Tuesday, March 24 and Wednesday, March 25, 2009, WirelessWerx CEO Steve Artim and the undersigned met, respectively, with Paul Murray, Legal Advisor for wireless matters in the Office of Acting Chairman Copps, and with Ron Repasi and Bill Lane and other staff members of the Office of Engineering and Technology and the Public Safety & Homeland Security Bureau. WirelessWerx Sales Director Bill Munn was present for the first of these meetings.

We spoke from the attached slides. The second slide consisted of a TV news clip, for which we will substitute a verbal transcript when this is obtained. We also left behind the attached report and appendix on the WirelessWerx in-building location determination system and the results of a recent trial in a two-story office building of 40,000 square feet in the Denver area.

Please direct any questions to the undersigned.

Sincerely,

  
James R. Hobson

cc: Paul Murray, Ron Repasi, Bill Lane
