

In response to comments urging the FCC to grant petitions CSR-8126,CSR-8127,and CSR-8128 I wish to add that my local community access center is a VITAL SOURCE OF INFORMATION. Many times I have learned more watching a program produced at,or delivered through Metro-East Community Media than I could ever learn watching the "local news".

Please keep the public in "public access" and grant all three petitions.

THANK YOU
