

To the Director:

I used 26 yr. of my life serving my country in the military. During that time, I was introduced to the language reserved for the gutter. Now it comes into my home via the "airwaves" courtesy of my gov't agency the FCC. While in the military I could anticipate the filthy/obscene/abusive language and go else where. Now you allow it to invade the sanctity of my home.

Enough is enough! We respectfully demand that you give every American the option to filter the input, that we may live a peaceable life in our own home by allowing, encouraging, or mandating, all providers of programming, or information via - Cable, Internet, and Satellite - the ability to increase commerce by providing filtering of language as mentioned above .

Thank you for your attention in this matter.

In His Majesty's service,  
Mr. & Mrs. T. R. Ackman  
Dover, NH 03820
