

To Whom it may concern:

Millions of homes have already benefited from automatic foul language filtering technology through TV Guardian, which uses the existing hidden closed-captioning signal to detect and mute offensive language. Unfortunately, FOUL LANGUAGE FILTERING TECHNOLOGY WILL NO LONGER BE AVAILABLE AFTER THE SWITCH TO DIGITAL TELEVISION THIS SUMMER.

Our family WANTS foul language filtering technology on TV, cable, satellite and other devices that show TV programs and movies after the switch to digital television.

Please let the free market work.

Let us have a choice.

Thank you,

The Hatches
