

Cable and satellite companies need to give parents the option of using these parenting technology tools available just because it's good business. This technology will even increase profits for them since filtering out language makes more TV shows and movies OK for family viewing. Yet, a handful of powerful media companies are fighting to keep this technology from me. We need help from FCC to let the free market work. We want to have a choice. We want foul language filtering technology on TV, cable, satellite and other devices that show TV programs and movies. **WOULD YOU PLEASE HELP US.**

Sincerely,

Kenneth Martin Brown
