

This comment is just to follow up on the official complaint that I lodged on the phone regarding the callous disregard for the community and profiteering that the local NBC affiliate WHDH CH7 is exhibiting by making an announcement that they do not intend to carry the new Jay Leno show which will be on in primetime every weeknight at 10pm soon. They plan to start a new newscast at that time so they can keep all the money from the ads. This is Jay Leno's hometown and everyone I have spoken to would rather see his show at 10 than yet another newscast in a market where we already have 3 local ones at 10pm followed by the news at 11pm. If they are not going to carry the NBC content, they should lose their license to someone that will.
