

We need your help! It is sad that today children can turn on the TV after school and get all kinds of sexual information from show like Oprah and The Doctors/ I am a registered nurse and I think these folks are taking this all way to far!!! I have a 5yr granddaughter that could be hearing this nonsense!! A quiz show that has two teams competeing for points answering questions like How long is a woman clitorus??? Yes we need parental controls if we dont want our children traumatized by these TV shows!!
