

AT&T has decided to attach a \$10.00 additional monthly charge to every phone bill. They call it a 'service charge', there is no reason given for this charge nor is anything 'new' provided. It is also taxed.

Please look into this charge and require an explanation of it be made public. We need to know who set this forward and why. Someone is lining their own pockets just because they think they can.

Thank you, Jack and Verda Spice
