

Please support this technology with the change to digital this summer. Since we cannot CHOOSE which channels we want to pay for in the ridiculous packages offered to exclude channels containing GARBAGE and shows I don't support just to view shows I do like on one or two of the channels, this option should be made available to all to filter the vulgarity, indecency, promiscuity and everything else immoral that is ever invading our homes and becoming "normalcy". We can't control technology but we CAN control what our children watch. Perhaps I can just cancel cable altogether. We shouldn't have to pay for something that was once free and especially pay for a majority of the CRAP that comes with having cable just to watch the little that I do watch. I can live without...I'd be happy to promote and encourage others follow suit.
