

09-26

Advanced parental control technology should be made available for filtering offensive content in TV programming and movies, whether viewed on TV, over the Internet, cable, satellite, DVD Players, Blu-Ray Players, gaming consoles, or other video devices. Millions of homes have already benefited from automatic foul language filtering technology through TV Guardian, which uses the existing hidden closed-captioning signal to detect and mute offensive language. **AND WE WANT TO KEEP RIGHT ON BENEFITING FROM IT!!** So please make sure that this feature is kept available for parents who care!!
