

Comcast is not fixing our service. Refusing to make corrections on bill, after being charged double on everything from cable, internet, and phone service. We have been told by 5 managers they will correct our bill, fix our service and still nothing. We have only had the service for 3 1/2 months. With 73 phone complaints, 15 service techs, and still service is faulty. We have had nothing but complaints and rude csr to rude techs.
