

Thank you for having filters available for foul and distasteful language. TV shows have gotten so bad with what is allowed to be said and shown. My children can't even sit and watch a kid show with out being bombarded with sexual content maybe even crude language in the commercials. Please continue to have the filters available with the transition to digital. Would it be possible to upgrade the filters to be able to be more exact with blocking the word instead of a whole sentence. A better idea all together would be to get the trash off the networks. Thank you for your consideration of the matter.

Mrs. Rogers
