

Thank you Mr. Clafshenkel for your service to the country. Unfortunately your service benefits companies like Cox and organizations like the Lexington HOA.

To Cox and the Lexington HOA you are not a patriot serving the country but a source of money to both of them. The same can be said for the blind, the deaf, those not speaking English or Spanish and those who simply do not use cable TV and internet services. Cox and the Lexington HOA don't care anything about these people as long as they get their monies and kickbacks. They hide behind these bulk contracts knowing the industry's lobbyists will keep them in business until the end of their 10, 15 or even 75 year contract.
