

RE: TVGuardian

PLEASE REJECT any proposal to require TV manufacturers or TV providers to install the device known as "TVGuardian". It is yet another attempt by the RELIGIOUS FAR RIGHT EXTREMISTS to try to censor language that THEY deem unacceptable.

Since the Conservatives are always touting the marketplace as the final arbiter of choice, please be aware that after 10 years of their trying to sell this idea in the marketplace, the marketplace has overwhelmingly rejected it.

I sincerely hope that the FCC will reject it as well.

Thank you for allowing me the opportunity to make this comment.
