

To Whom It may concern,

I just wanted to write a complaint about some content I saw on the Scifi channel. While flipping through the channels Saturday afternoon (today, May 16), I came across Sci Fi playing the movie "I am Omega." I don't know what happened before or after the part of the movie I saw, but all I saw was a handcuffed women, in a bra and shorts, being laid on the ground and another man's face was forced into her pubic area, and rubbed around her private areas, as she struggled to get away.

This was on at around 4:45pm on Saturday afternoon!

I think this is rather vile and inappropriate, to say the least.

Sincerely,

Brandon Paul
