Re: WT Docket No. 96-86 and 06-150 and PS Docket No. 06-229
Notice of *Ex Parte* Presentation

Dear Ms. Dortch:

On June 4, 2009, Andrew Rein of Access Spectrum, LLC, and I met with members of the Commission staff in two separate meetings concerning the above-reference proceedings. In the first meeting we met with Margaret Wiener, Erik Salovaara, Craig Bomberger, Martha Stancill, and Peter Trachtenberg of the Wireless Telecommunications Bureau. In the second meeting, we met with David Furth, Jeff Cohen, Carol Simpson, and Tim Peterson of the Public Safety & Homeland Security Bureau (PSHSB); Erika Olsen of the PSHSB also participated in the second meeting by conference call. In both meetings, we discussed the current Upper and Lower 700 MHz band plans and the status of various proposals concerning the D Block and the promotion of public safety broadband communications. Access Spectrum described its participation in earlier stages of this proceeding and its A Block license holdings, and noted the implications the Commission's decisions concerning the D Block will have with respect to adjacent spectrum bands and maximizing the efficient use of these bands now that the 700 MHz band will soon be cleared of incumbent broadcast licensees. Access Spectrum discussed the importance of promoting greater efficiencies and synergies in the use of the A and D Block spectrum by optimizing the configuration of the Upper A and D Blocks. Access Spectrum discussed how doing so could help promote the Commission's broadband and public safety goals. The attached diagram depicting the current Upper and Lower 700 MHz band plans was distributed during both meetings.
