Subject: [Crossreg] US Regions: NPAC Point Release 3.3.3.5 and URI Fields Production Information

US NPAC Users,

The previously announced NPAC Point Release 3.3.3.5 will include the implementation of NANC 429, NANC 430, and NANC 435 (Voice URI, MMS URI, and SMS URI). The rollout schedule for this Point Release is below:

June 15, 2009 – Industry Test Environment

June 28, 2009 – Southeast Region

July 12, 2009 – Mid-Atlantic, Midwest, and Northeast Regions

July 19, 2009 – Southwest, West Coast, and Western Regions and the SOW 52 Testbed

Please note, vendor and Service Provider Certification Testing must be completed for Optional Data Parameters, i.e. AltSPID, in order to use the new URI parameters. Please contact Customer Connectivity Services at 571-434-5434 or cc@neustar.biz with any questions regarding Certification Testing.

Service Providers must complete the updated U.S. Profile Form to use these parameters. All forms and M&Ps can be found on the NPAC Secure site (www.npac.com/secure).

Thank you,

Jessica B.F. Wangner: NeuStar, Inc.

NPAC Service Management Analyst

46000 Center Oak Plaza Sterling, VA 20166
