

My name is Martha Coppinger and I drive a school bus, as well as a field coordinator for Cobb County Schools. I listen to bus radio more than I do the AM-FM radio. The music is just like what you would hear on the radio but without the cursing and degrading language that is in some of the song's today. The information that we hear during commercials are very informational. There are things that we do everyday, that sometimes we forget the simple things to do in a time of need. The children love to listen to it as well. I have a 15 yr. old and this is all she likes to listen to.
