

Snap Telecommunications, Inc.'s ASL Comments in Response to the FCC's NPRM

Snap Telecommunications, Inc. (Snap!VRS) files Comments made in an ASL video in response to the Commission's Notice of Proposed Rulemaking (NPRM) seeking comment on whether it should modify the tiered rate plan for VRS; the video is available at: http://www.snapvrs.com/about_us/press/article/?id=25.

Snap!VRS has substantially relied on the FCC's three-year rate methodology established in the November 2007 Order in making significant financial and operations decisions. Snap!VRS explains in its video the reasons for its strong opposition to any change to the VRS rate. Snap!VRS has also filed written Comments in response to the NPRM.
