

the change to DTV is the worst i have ever seen! watching antenna tv. the picture quality is lousy, it is always breaking up, i have spent so much money on Dtv antennas to have them all fail. I just wonder who is benefiting from this change, hum lets see cable companies and what's next the people that sit themselves on welfare bad enough tax payers pay for them to live now, we pay for cell phone and here now come cable tv. what a joke
